ANNUAL REPORT JIET

Honorable Chief Guest Er. Hemant Gera, sb, Divisional Commissioner, Jodhpur, dignitaries on and off the Dias, guests, colleagues media persons and my young friends!

I welcome you all on this auspicious occasion of Annual day 2014. I am overjoyed to fulfill the obligation of presenting annual report of JIET.

Currently what the nation needs not only dedicated quality engineers but also with the best citizenship spirit. It is in this respect that this Institute discriminates itself from many not only in imparting the quality education to students to enhance their knowledge and wisdom but also to develop multidimensional personality and inculcate in him the best qualities as a person. The vibrant academic atmosphere, high degree of discipline, well equipped laboratories and committed faculty motivate the students to develop physical feel of the subjects so as to convert their thoughts into actions. The reflections of which are felt in many ways say the University results, the placements, the out of campus activities etc. The national character of the Institute is reflected in its accreditation granted by national board of accreditation, New Delhi. It may be mentioned that among lacs of Institutions in the country only a few thousand are NBA accredited and our institution is one of them.

RESULTS:-

This year more than one third students have got their degree with honors comparable to the last year and 39.87% of students have got First Division as compared to 22.56% last year. In fact 99% of students passing are either the first divisions or honors holders.

The pass percentage of students this year has been above 75% except IT branch for which we are making special efforts. Yet all the results are far above the university average result this year.

It is a matter of great proud to announce before the house that as many as 14 students of Batches 2013 and 2012 have placed them in the final list of top ten meritious students as declared by RTU. We congratulate these students.

SR NO	NAME	MERIT NO
1	PRIYA SHARMA	2
2	POOJA BITHU	2
3	KOMAL MANGAL	3
4	RONAK MEHTA	3
5	LALIT KUMAR SHARMA	3
6	HEENA MEHTA	4
7	KESHAV KUMAR	4
8	RAKESH KALYANI	5
9	ADITI GARG	5
10	RAHUL CHOUDHARY	8
11	DHANRAJ	8
12	AKSHI MATHUR	10
13	RAJESH KUMAR DHURIYA	10
14	ANKIT JAIN	10

It is a known fact that output is determined by the input so, to enhance the quality of output further, the input is enhanced by way of gifting Laptops to all the students admitted in I year B.Tech having RPET rank below 3000. Whatever be the quality of input, the institute is determined to develop the potential in an individual to the maximum extent. Our endure shall be that each an every JIETIANs passes with good marks.

It is useless to say that organizing Seminars, Conferences, Workshops and Guest Lectures by renowned personalities and academicians is our regular feature. Recently an International Conference on **Emerging Trends of Research in Applied Sciences & Computational Techniques** has been successfully organised on February 21-22, 2014.

Placements:-

In this era of global industrial and economic recession, the placement of students in industries is a big challenge. Coming to placements, till date as large as 208 students have already been placed and 250 short listed in various companies like Act TV, Hexaware, Syntel, Bosch, Defence etc. with a salary package as high as 6 lacks. Many more companies are in pipe line. The Placement Department deserves special thanks.

We have obtained feedback from the companies visited and are preparing our students as per their requirements through our independent Pre-Placement Cell. We want to see that each and every JIETIAN is placed.

A top class Technical Institute should not only have excellent placements but also cater the national need of developing entrepreneurs. The Institute is catering this need through 'Entrepreneurship Development Cell' established in 2012. Every year we are organizing Industry institute interaction program where academicians and industrialists exchange their ideas at a common platform. This has benefited the students to have real practical training in the industries identify real industrial problems and develop him/her an entrepreneur. To strengthen in further two incubation centers and website development for Jodhpur entrepreneur have been established this year we express our sincere thanks to the industrialists and appreciate efforts of EDC Cell.

Sports and Extracurricular Activities:-

Healthy mind rests in a healthy body. Our students not only participate in games and sports daily but also win medals outside JGI at state and National level. Mentioning a few. Our team / students have won Gold medals in both Volleyball and Badminton, silver medals in Cricket and Bronze Medals in Basketball. In Athletics they claimed 7 Gold and 6 silver in All India sports meet at IIT Rajasthan.

Publication:-

An educational institute is known by the quality faculty it has. This institute has young dynamic and talented faculty, this reflects not only in the university results but also in research publications. This year our faculty have published as many as 57 research papers in various National and International Journals and conferences of repute. They deserve more than the congratulation and appreciation I am putting on record. We appreciate the management for providing cash incentives to the faculty publishing his/her research work. This induces new spark in them and above results are outcome of that.

I thank the audience for giving a patient listening to the report.

Thank You, Jai-Hind ! Jai JIET

Presented by:-
