ANNUAL REPORT

Respected chief guest and guest of honour for today's evening, other dignitaries on and off the dais, guests, directors, deans, heads, my fellow teachers and students, I feel great pleasure in presenting the annual report of Jodhpur Institute of Engineering & Technology followed by the annual report of JIET School of Management for the session 2016-17.

To accomplish the dream of providing quality education and to serve the need of Western Rajasthan, Arun Shanti Education Trust established this institute in 2003. I feel proud in stating that in last 14 years, this NBA accredited institute has become a pioneer engineering college in Rajasthan; imparting education to more than 2800 students in UG and PG programs. 33 students have already successfully completed their M. Tech. from this institute and another 46 are pursuing the M. Tech. The institute has progressively become a choice of higher RPET rankers.

It is my great pleasure to inform the august gathering that our institute has started Ph.D. program this year and RTU has also agreed to provide academic autonomy to the institute. Further to add that National Board of Accreditation (NBA) has accredited four branches of the institute for another three years.

The regularity of classes, keen interest of the students, efforts of teachers, exemplary discipline in the campus provide an excellent academic environment, which has reflected in wonderful results: last year

JODHPUR INSTITUTE OF ENGINEERING & TECHNOLOGY

Approved by AICTE, Ministry of HRD, New Delhi & Affiliated with RTU, Kota.

JIET Universe, N.H. No. 65, Mogra, Pali Road, Jodhpur – 342802

about 75% students passed successfully with about 95% of them securing I Div. and Hons. It is heartening to note that out of 60 merits of RTU in 6 engineering branches, in 2016 examination JIETians acquired 4 positions including the First rank in ECE and 2nd rank in Electrical Engineering and 3rd in Civil Engineering.

We conduct academic audits and follow-up actions are taken on the students' feedback. Regular Faculty Development Programs, workshops, seminars and expert lectures are conducted. Last year more than 190 expert lectures were delivered for the students and faculty by senior faculty members, experts from reputed institutes, universities, government organizations and research organizations.

In the academic year 2016-17, 14 workshops were organized in the institute and faculty members attended 25 workshops outside also. Faculties delivered or were invited to deliver expert lectures or present as expert at national and international institutes of repute.

At present, 40% of the faculty is having M. Tech. degree and 18 of them have doctorate; about 50 teachers are pursuing their M. Tech. and 19 teachers are pursuing their Ph. D. programs.

The faculty is actively involved in research. They have about 60 research and book publications to their credit; out of which about 25 publications

JODHPUR INSTITUTE OF ENGINEERING & TECHNOLOGY

are in International Journals of repute and one book was published by Springer at the international level.

The students of the institute have proven their professional capabilities by getting selected to some of the best companies and have shown progressive better results in GATE examination. Last year 34 students got valid GATE score. Three students of mechanical branch went for their higher studies at England, Germany and Australia. Four students of Electrical Engineering branch were successful in A.En. examination conducted by RRVNL.

The institute makes all the efforts to make the students more employable. We run Personality and Skill Developments sessions using our internal faculty as well as hiring experts from outside for this purpose. As a result of these efforts last year total 269 students got placed on-campus. This year the session is not over yet but we have already crossed the figure of 170 placements. Mr. Rakshit Parihar, a student of Electrical Engineering, got placed in ACCR, South Africa at a package of 23.5 lacs.

Solar car of team “Suryoday” of Mechanical and Electrical Engineering departments has been selected in Green Mobility Int. Expo. 2016 at Delhi for participation at Asia level competition.

The students of the institute take active part in sports and other extra-curricular activities. Last year they won many medals and prizes; prize in debate at Lachoo College, prizes in games and sports meets at IIT Jodhpur and RTU, Kota. Three students were selected for RTU teams. Students won

first prize at Start-up Fest, Jodhpur. One student won the best presentation award for his paper in an Int. Conference at JNU, Delhi.

And now the some achievements related to Management Department.

Student results at University level had always been a matter of pride for Management Department and this time also the tradition continues. For the 2016 batch result was 89 % and for the current batch of 2017, the second semester result was 96.5 %.

Keeping in tune with the work culture of JIET Group, regular Faculty Development Programmes, Seminars and work-shops are conducted in Management School also. Last year a 14 day FDP was organised to keep the faculty members updated on latest developments at National and International level. Total 16 Expert and Guest lectures were organised in which experts from various fields interacted with students and faculty members.

At National and International Conferences 3 papers have been presented by MBA faculty members. Three papers from the department have been published in International refereed journals. Department has also published a book as conference proceedings.

Department organised 4 work-shops/ symposiums on different topics for the upgradation of knowledge amongst the students and faculty members.

To understand the real life situations, 3 Industrial visits and tours were also organised by the department.

Two faculty members have completed their Ph.D. during this session.

In the 2016 batch 11 students got placed and in 2017 batch till date 9 students have already been placed.

In the end, I assure you all that we will continue to do better and scale newer heights.

Jai Hind, Jai JIET.
